PROJECTS

Meal Planner

- [GitHub Frontend](#)
- [GitHub Backend](#)

The idea is to build a platform where you can create your meal plan and track what you eat every day as well as count your caloric intake.
Tech: ReactJS, Typescript, SASS, Redux, ExpressJS

Izgubljene tablice

- [GitHub Frontend](#)
- [GitHub Backend](#)

The idea for this project was to make a service where you can report lost or found numberplates. When someone finds your numberplate, you get an e-mail notification and a GPS pin of the location.
Tech: ReactJS, SASS, Redux, ExpressJS
